Submit

- this will open the design form in another tab , and from here , we can choose a table of form , we want to design along with the required view for that particular table .
- configure form layout :
 - first we have to head to the configure>form layout , in order to display the costumized colimns in our table .

The screenshot displays a web-based form configuration interface. At the top, there's a header bar with a back arrow, a hamburger menu icon, the text 'Demo New record', and a 'Submit' button. Below the header, a form is visible with fields for 'Name', 'Address', 'Number' (containing 'DEM0107'), 'Short Description', and 'Date'. A 'Submit' button is at the bottom left. A context menu is open over the form, showing options: 'Save', 'Configure' (highlighted), 'Export', 'Create Favorite', 'Copy URL', 'Copy sys_id', and 'Reload form'. A sub-menu is open for 'Configure', listing: 'Form Design', 'Form Layout' (highlighted), 'Related Lists', 'All', 'Table', 'Security Rules', 'Business Rules', 'Client Scripts', 'UI Policies', 'Data Policies', 'UI Actions', 'Notifications', and 'Dictionary'. Below the form, there are tabs for 'Section 1', 'Section 2', and 'Section 3' (active). An 'Updates' section is visible below the tabs. A 'Submit' button is also present at the bottom left of the form area.

- in the form layout we can create a field (column) , choose what fields to displayed or shown on the list view , as well as for the list view we can design a customized view to be displayed with our customized policy .
- NOTE: thsee steps can be accomplished also from the humberger icon ,
